Type of lighting - listing: Latarki ręczne

Product description:

Select one of the Sniper 3.2's four modes and slide focus the bright 420 lm to light up a target over 275 meters distance or to flood light your encampment, deploying only one hand! The soft touch finish provides a solid grip and we've enlarged the rubberized tactical switch to give you complete control, even with gloves. The silent switch and make the Sniper 3.2 perfect for hunting.
