

Battery headlamp with smooth elliptical beam, VIZO, 400 lm

**Product price:**

**\$57.23**

**Product codes:**

Reference: AHL0021

### **Product features:**

Product line: Adventure Line  
Light output [lm]: 630  
Light source: Samsung LH351D  
Power: 3 x AA  
Beam distance [m]: 97  
Weight [g]: 195  
Designation: Outdoor  
Type of power supply: Battery  
Light output: Battery AA  
Type of lighting: Headlamps

### **Product description:**

VIZO is an ideal solution for anyone who values a long working time with suitably high power. The device is supplied with AA type batteries, provides 400 lms of light for 10 hours, or 20 lms of light for as long as 230 hours. The specially designed lens emits uniform light with a fairly wide angle of lighting. The additional signalling light on the container, the robust aluminium casing, as well as the extension cord, all make the VIZO headlamp necessary equipment for every expedition.
