

Bike frontlight SCREAM 3.1, 1 000 lm

**Product price:**

**\$77.76**

**Product codes:**

Reference: ABF0164

### **Product features:**

Product line: Adventure Line  
Run time: 2 h 50 min  
Light output [lm]: up to 1000  
Light source: Cree™ XP-L  
Power: 3400 mAh 18650 Li-ion Accu  
Charging time: 4 h 30 min  
Beam distance [m]: 160  
Weight [g]: 135 g  
Dimensions [mm]: 111 × 26 × 29  
Designation: Cycling  
Type of power supply: Accumulator  
Light output: 18650 battery  
Type of lighting: Bicycle lamps

### **Product description:**

The Scream 3.1 is an amazingly functional bike headlamp, generating a maximum of 1000 lm of ideally dispersed white light. The lamp will serve well in challenging conditions. The lens is made from polycarbonate, while the housing is made from aircraft grade aluminium and is both water proof (IP66) and shock resistant. The three-level charging LED precisely indicates how much power is available in the battery. With 5 operating modes any biker will find it easy to select the best one for the conditions at hand. For your convenience, the lamp can remember the last selected operating mode. The high-volume battery can be recharged through Micro USB anywhere you are. Depending on the operating mode, the lamp can work up to 40 hours. The lamp is fixed in a quick and intuitive manner. The set includes a lamp, a recharging cable, a fixing holder and a battery. Once removed from the holder, the lamp works great as a hand-held device.
