

LED Signal Light, 500 lm, Flagger

Product price:

\$26.11

Product codes:

Reference: PHH0071

Product features:

Product line: Professional Line

Run time: 2 h 30 min

Light output [lm]: 500

Light source: TG2 3535 LED + COB Red LED + COB Green LED

Power: Li-poly Battery 3.7 V 1500 mAh

Charging time: 3 h

Beam distance [m]: 154

Weight [g]: 109 g

Dimensions [mm]: 107,5 x 47 x 36,5

Designation: Work Lights

Designation: Industrialist

Designation: House

Type of power supply: Accumulator

Light output: Dedicated battery

Type of lighting: Hand flashlights

Product description:

A new iteration of an older classic, working with flat batteries. We all had them and remember them warmly. A flashlight with sliding filters, an aluminium housing and a heavy zinc-copper battery, only available at Ruck news-stands. Mactronic slimmed this flashlight down to a little over 100 grams (the entire flashlight now weighs what the zinc-battery would weigh and is easily grabbed with a hand. All functions can be activated with just one hand. The flashlight's built-on lithium battery is recharged via mini USB, saving the cost of replacing standard batteries. A fully recharged battery generates light at 500 lm, for 2.5 hours. A specially designed reflector allows to illuminate objects at a distance of up to 150 m. Selecting the economic mode, with the light power at 150 lm, the operating time is greatly increased, to 6 hours. A fully

independent COB panel replaces the red and green filter, generating a uniform green or red beam. This function is activated with two independent buttons, designed to prevent accidental activation of the wrong colour - the SURETOUCH™ technology. To further increase the flashlight's all-around usefulness, Mactronic added 3 different mounting options. The flashlight easily fits every pocket and also sports:

1. A magnet for fixing it to a car body, in case of emergency,
2. A clip for fixing it to a belt or a shirt's / jacket's pocket, for performing inspections or repairs, to keep your hands free,
3. A hook for fixing it in a tent or under a shed's roof.
