

Focus Control Headlight MAVERICK,
510 lm

Product price:

\$51.95

Product codes:

Reference: AHL0051

Product features:

Product line: Adventure Line
Run time: 2 h 30 min
Light output [lm]: 510
Light source: 1 x XP-L Cree White LED
Power: DSS™ - Akumulator Li-poly 3.7 V 800 mAh
Charging time: 2 h 30 min
Beam distance [m]: 150
Weight [g]: 97
Dimensions [mm]: 62 x 46 x 45
Designation: Fishing
Designation: Work Lights
Designation: Industrialist
Designation: Outdoor
Type of power supply: Battery/accumulator
Light output: Dedicated battery
Type of lighting: Headlamps

Product description:

Maverick is an independent individualist, but one, who always reaches out to their user. The flashlight offers four operating modes - the most powerful generates 510 lumens and ensures excellent illumination of the surroundings. On the other hand, the flashlight can work up to 21 hrs in eco mode, which means it can be used in the most demanding conditions. The housing is made from shock-proof plastic and is IP64 certified for dust and water penetration. The user can steplessly adjust the light beam focus and can activate a sensor that switches the flashlight on and off by waving a hand at it, which translates into much easier operation for users wearing gloves or whose hands are dirty. Maverick is also equipped with a DDS™ system - the

product may be powered with rechargeable batteries or regular batteries. Replacing the source of energy is super quick and intuitive.
