

## Patrol Flashlight with Stepless Light Regulation, 800 lm, EXPERT PL3

### Product price:

**\$95.46**

### Product codes:

Reference: THH0022

### Product features:

Product line: Tactical Line  
Run time: up to 26 h  
Light output [lm]: 800  
Light source: Cree® XM-L2 LED  
Power: 2 x battery 26650 Li-ion 6000 mAh (3.7V)  
Charging time: 6 h (5V 1A)  
Beam distance [m]: 420  
Weight [g]: 440 g  
Dimensions [mm]: ø 48 x 239 mm  
Designation: Tactical  
Type of power supply: Accumulator  
Light output: Dedicated battery  
Type of lighting: Hand flashlights

### Product description:

The EXPERT PL3™ flashlight was created for use by intervention patrol teams, security personnel and officers, whose priorities are the duration of work, durability and handiness. Thanks to its regular shape, ribbed handle and rubber-cased housing, the device perfectly fits the hand and is equally at place attached to the work belt, in the pocket or in its designated place in a vehicle. The EXPERT PL3™ light power ranges from 82 to 797 lumens and throws the beam up to 417 m. The device's minimal operating time starts at 4 hours, but at reduced light intensity, the operating time is extended up to 26 hours, with just a single recharge of the battery. The device's handle holds a Li-Ion 26650 battery with a capacity of 6000 mAh. The battery can be recharged via a magnetic cap placed on the device's rear end and connected to a mains adapter or a USB socket. The EXPERT PL3™ is a convincingly robust and durable design. The aircraft grade aluminium housing translates into a

low weight of the device (only 440 g). The flashlight's protection class is IPX7 and is resistant to drops from 1 m. The product comes with a wrist strap, a rechargeable battery, a USB cable, a charging cap and a mounting base for installation in a vehicle or on a wall.
