Maverick White Peak is a versatile headlamp featuring focus adjustment and a motion sensor. It operates in four modes, allowing users to adapt the light beam to changing conditions and individual needs. It delivers up to 320 lumens of light output at its highest setting. Powered by three AAA batteries, it offers an extended run time of up to 60 hours. The headlamp's body is constructed from impact-resistant material, and its dust and water resistance is certified by an IP64 rating. Additionally, it can be powered by an optional Li-Po rechargeable battery, providing flexibility in power sources.
