

HALO 100K

PFL0242

APPLICATIONS: FIREFIGHTING, RESCUE, LAW ENFORCEMENT, MILITARY, UNIFORMED SERVICES, INDUSTRIAL, ROADWORKS

☀ 100 000 lm

**MADE IN
POLAND**

POWER SUPPLY	100-240V AC
POWER	660 W
LIGHT OUTPUT	10 000 - 100 000 lm
CRI	> 80
COLOR TEMPERATURE	5000 K
OPERATING TEMPERATURE	-15°C - +40°C
LIFETIME	70,000 h (25°C)
HOUSING	polycarbonate, aluminum, steel
DIMENSIONS	685 x 493,2 x 493,2 mm
WEIGHT	17 kg
THE SET INCLUDES	230V AC power cord with wire remote control

ADDITIONAL ACCESORIES

T-TR-4M	4 m tripod with crank handle
T-PFL0242-CASE	Transport case
T-POKROWIEC-MASZT	Transport bag for 4 m tripod

HALO 100K is an advanced area lighting system equipped with 24 light panels that generate an impressive light output of up to 100,000 lumens. The light segments can be switched in pairs (180°/360°) using a remote control with dimmers on the control cable, allowing for precise adjustment to meet specific lighting needs. The system also offers multi-stage angle adjustment of the panels (up to 45°). The housing, with IK08 mechanical impact resistance and IP65 protection rating, ensures durability and reliability. HALO 100K is an indispensable solution for law enforcement, rescue teams, construction crews, and all professionals working in challenging and hazardous environments such as deep excavations, tunnels, or disaster-stricken areas.
